EXPERIENCE

Full Stack Developer Student @ NSCC

2022 - 2023

- Maintained understanding of current web technologies and programming practices through continuing education and professional conferences.
- Problem-solved by creating algorithms and mastering JavaScript syntax.
- Analyzed operating systems and networking to effectively debug web applications and used command-line tools in Windows and Linux.
- Utilized authoring or scripting languages and content creation tools to design, build, and maintain websites in HTML and CSS.

Substitute Teacher @ Halifax Regional Centre for Education

2021 - 2022

- Focused on Nova Scotia Curriculum from pre-primary to grade 8 while utilizing current technologies.
- Worked in various grade level classrooms, including learning and resource centre classrooms.
- Demonstrated ability to adapt to change in various classroom settings, access learning outcomes, plan and implement class management, and plant instructional goals.
- Utilized effective communication skills with students, staff, parents and the community.

PROJECTS

Halihax Lightning Talk

- Delivered an engaging 15-minute presentation on CSS Animations to the Halihax tech company and the community.

Weather Tile

- Crafted a sleek weather application that showcases date, temperature, and weather forecasts using React, JavaScript, HTML and CSS.

Nanny Application

- Designed a cutting-edge nanny web application that integrates local APIs for user profiles, employment, and user authentication, utilizing React, JavaScript, HTML and CSS.

EDUCATION

Grad. Certificate Full Stack Development @ NSCC

2022 - 2023

Bachelor of Education @ University of Toronto

2013 - 2014

Bachelor of Fine Arts @ Laurentian University
